THORBURN'S SEED DISPLAY CABINET.

This novel cabinet is 30 inches high and only 15 inches wide—a convenient size for standing on a counter. It has 40 compartments for vegetable seeds and 39 for flower seeds. Each compartment holds 10 (or more) packets. The cabinet will thus hold 790 (or more) packets in 79 distinct sorts, the whole packet being visible. No matter how few packets are in the compartments, they can stand to the front, and the same uniform display is maintained as well when the cabinet is nearly empty as when it is full. When exhibited in this cabinet, our handsome colored lithographic packets will sell themselves.

Price, \$3.50, free on board, no charge for boxing.

TREE AND SHRUB SEEDS.

The percentage of germination of Tree Seeds varies in the different kinds, and sometimes in the same kinds in different seasons. Acer saccharinum, Cupressus, Sequoia gigantea, and some others rarely contain over 20 to 50 per cent of growing seed. We sell Tree Seeds just as received from the various sources, and can judge of their quality only by appearance.

FERN BALLS.

We have imported some of these interesting Ferns from Japan. They are easily grown and occupy little space, being suspended from the roof. In the fall the leaves die off, and the plants need a rest for two months, during which time it is recommended to keep them out of doors. The frost does not hurt them, but when taking them in, they should be gradually thawed out. We handle only the long-leaved variety. Price, 40 cts. each.
